

Career goals and next steps

You have learned that project management encompasses a wide variety of positions across numerous industries. We have also discussed a number of possible job titles for you to search for when you start exploring project management roles.

Please respond to one or more of the following questions below:

Consider your current role and any past positions you've held. Which skills are transferable to a project management career?

Consider the different project management job categories discussed in the reading. Which categories interest you most? Why?

Consider your current industry. What do you like about working in this field? What other industries are you interested in exploring? Why?
