1. Agile project management is based on the Agile Manifesto. Which one of the following best describes the Agile Manifesto? 1 / 1 point

- ☐ An informative book on how to best complete tasks on time in an Agile environment.
- ☐ A document which is sent to each team member by the project manager that outlines what each team member will be working on.
- ☐ A set of steps which need to be followed rigorously by the entire team.
- ☒ A collection of four values and twelve principles that define a good mindset an Agile team should strive for.

☒ Correct

2. Which one of the following describes one of the main reasons that led to the creation of Agile? 1 / 1 point

- ☐ The Waterfall model was not strict enough, so Agile was created as a more linear and strict approach.
- ☒ It is difficult to accommodate change using the Waterfall model when a client wants to modify a feature.
- ☐ Agile was created to enhance and work alongside the already existing Waterfall model.
- ☐ The Waterfall model was often not executed correctly, so a new methodology was needed to correct this.

☒ Correct

3. As an Agile project manager you are faced with a situation where an additional feature is required before moving forward. This additional feature was not part of the original plan. What would be the best way to handle this situation? 1 / 1 point

- ☐ Finish the plan and then revisit the new feature
- ☐ Tell the client the feature was not part of the original plan so it cannot be implemented
- ☒ Respond to the change rather than follow the original plan
- ☐ Have your team continue with the plan while you implement the feature yourself

☒ Correct

4. Part of the Agile process is to reflect together as a team on how to become more effective, then implement the feedback from these reflections to improve. What is the Agile name given to this process of team reflection? 0 / 1 point

- ☐ Hindsight
- ☐ Retrospective
- ☐ Standup
- ☒ Continuous learning

☒ Incorrect

Please review [the video on the principles of the Agile Manifesto](#).

5. As a project manager, you identify that your business plan may face major disruptive changes and a high degree of uncertainty. Which project management methodology should you follow? 1 / 1 point

- ☐ Both Waterfall and Agile can work
- ☐ Waterfall
- ☐ Neither Waterfall nor Agile will work
- ☒ Agile

☒ Correct

6. As a project manager, your team is developing software in an industry with strict regulatory requirements. Your team works in iterations. Additionally, to accommodate the strict requirements, you allocate more time to planning and documentation than previous projects. Which two project management methodologies is the project manager blending? 0 / 1 point

- ☒ Waterfall and XP
- ☐ Agile and Scrum
- ☐ Agile and Waterfall
- ☐ Scrum and Kanban

☒ Incorrect

Please review [the video on blending approaches](#).

7. What is the product owner on your team responsible for? Select all that apply. 0.75 / 1 point

- ☐ Providing the final say on how to prioritize the work
- ☒ Owning the inventory of work

☒ Correct

- ☐ Running the project team meetings
- ☒ Maximizing the value of the product and the work of the team

☒ Correct

You didn't select all the correct answers

8. Test first development is a best practice in what popular Agile framework?

1 / 1 point

- ☒ XP
- ☐ Waterfall
- ☐ Kanban
- ☐ Scrum

☒ Correct

9. A software development team uses a visual board to track their progress through each production sprint. What two Agile approaches does this team combine?

1 / 1 point

- ☒ Kanban and Scrum
- ☐ Waterfall and Scrum
- ☐ Scrum and XP
- ☐ XP and Kanban

☒ Correct

10. As a project manager, you lead a project with a team of developers working remotely. The client would like to review several prototypes before settling on the final product. Which approaches should you consider for this project? Select all that apply.

0.5 / 1 point

☒ Scrum

☒ Correct

☒ Iterative

☒ This should not be selected

Please review [the video on Agile and Waterfall project management](#).

☐ Waterfall

☐ Agile
