1. You are managing a construction project and must pour the foundation before you can move on to the building phase of your project. You have ordered the required materials, selected the best team members to execute the pouring, and scheduled a day to when the foundation will be poured. Which of the following represents a milestone in your project plan? 1 / 1 point
- ☒ Completing the foundation
 - ☐ Selecting team members
 - ☐ Scheduling a day to pour the foundation
 - ☐ Receiving required materials
- ☒ Correct
2. You are developing a schedule for your team's project plan. Why might you ask your stakeholders or colleagues to share with you emails that relate to the project? 1 / 1 point
- ☐ These emails tell you what your team members are doing.
 - ☒ These emails can help you uncover tasks.
 - ☐ These emails can help you bond with your colleagues.
 - ☐ These emails will keep you involved with every aspect of the project.
- ☒ Correct
3. You start a new job as a project manager in the private banking industry. You need to have a basic understanding of topics such as how clients open accounts, back office operations, and how trade confirmations are verified. Which of the following terms refers to the knowledge you need? 1 / 1 point
- ☐ Enterprise learning
 - ☐ Intellectual property
 - ☒ Domain knowledge
 - ☐ Competitive intelligence
- ☒ Correct

4. To identify project tasks for your project plan, you review project documentation and research your project online. You have connected with members of your project team and other experts in your organization to examine your list of tasks. You decide you need additional details about a key deliverable. Who should you speak to in order to receive the missing information? 1 / 1 point
- ☐ Your most senior stakeholder
 - ☐ Your company's Chief Operating Officer
 - ☒ One of your high-influence stakeholders
 - ☐ Your company's most senior project manager
- ☒ Correct
5. You have gathered information from project documentation and the project team. With this information, you identified and created a list of tasks for your project plan. What is the next step for completing your project plan? 1 / 1 point
- ☐ Identify tasks that stakeholders have a particular interest in.
 - ☒ Identify the order in which tasks need to be completed.
 - ☐ Identify points in the project plan where you can evaluate completed work.
 - ☐ Identify tasks that carry a high risk.
- ☒ Correct
6. Which of the following may indicate a milestone for your project? 1 / 1 point
- ☒ A task that your stakeholders have the most interest in.
 - ☐ A task that requires participation from the most team members.
 - ☐ A task that can be completed most quickly.
 - ☐ A task that your team is most excited about.
- ☒ Correct
7. You estimate time requirements for designing and launching a new page on the company website. Your page designer estimates that they can design and build a page for launch in three days. You determine that you will need an additional two days for copy editing, legal clearance, and launch authorizations. What is the effort estimate for this task? 0 / 1 point
- ☐ Three days
 - ☐ Eight days
 - ☒ Five days
 - ☐ Two days

⊗ Incorrect
Please review [the video on time estimation](#) .

8. You are making time estimates for your project plan. You ask your task expert to estimate how long the task would take if you assume you need to replace your vendor and you experience unexpected turnover right before the task begins. Which of the measures involved in “three-point” time estimations are you asking from your task expert? 1 / 1 point

- ☐ Planning time estimates
- ☐ Most likely time estimates
- ☐ Milestone time estimates
- ☒ Pessimistic time estimates

✓ Correct

9. Why is the three-point time estimating technique a good way to determine a confidence rating for your time estimates? 1 / 1 point

- ☐ It is the time estimating technique that involves input from the most people.
- ☒ It ensures you have considered the best-case and worst-case conditions for a task.
- ☐ It removes all uncertainty from your estimate.
- ☐ It is a commonly used technique that everyone is familiar with.

✓ Correct

10. When you ask questions of your team members without showing empathy, you can leave them feeling too closely observed, controlled, or continuously reminded of the work they have been assigned. What is the term that expresses this negative impact your team members feel in this case? 1 / 1 point

- ☐ Arguing
- ☒ Micromanaging
- ☐ Harassment
- ☐ Justifying

✓ Correct
