

Tools of the trade

Reflect on what you've learned so far about project management tools, such as digital documents and spreadsheets, Jira, Asana, Monday.com, Basecamp, Trello, and Smartsheet. Then answer two or more of the following questions:

Prior to this course, did you use any project management tools or software?

Have you tried any of the tools recommended in this course? Which ones?

If you tried using some of the project management tools listed, which was your favorite? Why?

Which tools do you plan on using in the future, and why?
