    ☐ Coaches the Scrum Team

3. What is the primary role of the Scrum Master?　　　1 / 1 point

    ○ They ensure the team is building the right product.

    ○ They work to continuously maximize the value of the product delivered by the
      Scrum Team.

    ○ They do the work to build the product.

    ⦿ They promote and support the Scrum process by helping everyone understand
      and implement Scrum.

4. Imagine you are a Scrum Master coaching Developers to embrace the traits of an effective Development Team: being cross-functional, self-organizing, and supportive. Which *additional* trait should effective Development Teams display?

1 / 1 point

- ⦿ They should be customer-oriented.
- ◯ They should work as individuals rather than as a team.
- ◯ They should share expertise in the same discipline.
- ◯ They should operate independently, without direct oversight from the Product Owner.

⊘ Correct
The Development Team includes the people who build the product. They should be customer-oriented, meaning they focus on the user when building their products.
